

Examination paper and markscheme pack

November 2006 examination session

Getting started

Insert the CD-Rom into your CD drive. The CD-Rom should start by itself. If it does not, manually open the CD-Rom from your desktop. Select the file "index.html" and open it in your web browser.

This CD-Rom includes HTML (hypertext markup language) files for the navigation pages and PDF (portable document format) files for the examination papers, markschemes and list of contents. For the music listening paper only, MP3 files are provided.

If you have a web browser to read HTML pages, either Preview (built into Mac OS X) or Adobe® Reader® to read PDF files, and MP3 player software to listen to music files, you are ready to access the contents of the CD-Rom. Further instructions are available on screen.

You can also open the PDF files directly by using Windows Explorer (Windows®), Finder (Mac OS®) or other file browser (Linux®) to navigate the CD-Rom.

Copies of the free Adobe® Reader® and Firefox™ web browser software are available in the "Software" folder on this CD-Rom. Open the file "ReadMe.txt" and follow the instructions.
